

Warnings and cautions

- To avoid electric shock, serious injury or property damage, isolate power before installing, removing or servicing the product
 - It is recommended that luminaires are installed by a qualified electrician and the installation complies with the local current wiring regulations
 - Any broken or damaged parts should be replaced as soon as possible JCC will not accept responsibility for claims arising from any sub-standard installations
 - It is recommended that the ambient room temperature should not exceed 25°C
- These products are designed for connection to a mains supply of 220-240V~ 50/60Hz
 - The light source of this luminaire is not replaceable: when the light source reaches the end its life the whole of the luminaire must be replaced
 - This luminaire is suitable for indoor use only
 - It may be necessary to upgrade your MCBs to allow for increased inrush current
 - Do not cover with insulation
 - Do not carry out insulation tests with the product connected to the circuit

INSTALLATION

ENGLISH

- Read instructions and check that you have all of the tools and accessories required to complete the installation correctly. Isolate power supply before starting the installation.

Specifications Ra: 80

Standard non-dimmable/dimmable luminaire installation

- Remove the ceiling tile or tiles from the location where you wish to install the LED panel.
 - Wire the LED driver to the mains supply as indicated in figure 1. If a dimmable variant, connect the dimming control wires (DALI/1-10V/DSI) as shown in figure 2.
 - Move LED panel into the ceiling aperture and when positioned halfway connect the driver low voltage output to the LED panel (luminaire) as shown in figure 1.a.
 - Position the LED panel into place in the grid ceiling.
 - Reconnect mains power supply and test for operation.

Wiring connection

220-240V 50/60Hz / Class II

Profile & Dimensions

All dimensions in millimetres

Mounting options

Wire suspension

Suspension Mounting

JCC can also supply a Wire Suspension Kit for applications where a ceiling grid is not available

Grid ceiling

Surface mounting box

Surface Mounting
JCC can also supply a Surface Mounting Tray.

Please ensure there is adequate clearance around the fitting to allow access to the panel.

Recommended remote emergency packs:

JCEM001- JCC Emergency Remote Pack

JCEM001ST -JCC Emergency remote pack self-test

Suspension bracket fixing points

1200 x 600mm

600 x 600mm

1200 x 300mm

Important warranty information

Our Skytile® range is covered by our 5 Year Warranty. That includes 2 Year On-Site support, and our 3 Year Commercial Warranty. During the 2 Year On-Site support, we will replace or repair any of your Skytile® fittings completely free of charge. All warranties must be registered online at jcc.co.uk/warranty.

The installer will be asked to provide the following information, which is detailed on a label attached to the luminaire's chassis: Product Code/Batch or Date Code.

RoHS
Compliant

IP44
